The following steps are being taken by the Government:

1. A Cell has been established in the Directorate General of Health Services to coordinate AIDS Control activity in the country.

2. 35 Surveillance centres have been established in the country to screen high risk group.

3. All these centres have been provided with diagnostic reagents and equipment package have also been provided to most of them.

4. Restrictions have been imposed for import of blood and blood products without AIDS clearance certificate.

5. All the State Health authorities/ hospitals/STD clinics have been alerted to be vigilant.

6. All the blood banks have been instructed to screen the professional **blood donors.**

7. All the State Health authorities have been advised to ensure strict sterilisation practices in hospitals and clinics and to use pre-sterilised disposable syringes and needles as far as possible.

8. Guidelines have been sent to all the State Health authorities for health care personnel.

9. All the mass media channels have been involved in educating the people on AIDS its nature, transmission and prevention.

10. Foreigners other than those working in Missions including foreign students likely to stay in India for more than one year will be required to undergo AIDS test on arrival. However, foreign students who are already in India when admission is sought will not be required to undergo AIDS test.

No cases of AIDS were lodged in protective homes. However, persons detained in the vigilance and remand homes are considered to be belonging to high risk group for AIDS. On screening of the high risk groups as per the plan of action for AIDS control activities several women in the remand homes in Tamil Nadu were found positive for AIDS.
